

Key Components of CareerJobConnect

1. Central Login/Register Portal

- Serves as the entry point for all users.
- Handles authentication and routes users to the correct dashboard (Job Seeker, Recruiter, or Admin).

2. Job Seeker Flow

- Search for jobs → View details → Apply for jobs.
- Manage and update personal profile (skills, resume, preferences).
- Track application status (Pending, Shortlisted, Rejected).

3. Company/Recruiter Flow

- Post new job opportunities.
- Manage existing job postings and incoming applications:
 - Shortlist or reject candidates
 - Schedule and conduct interviews
 - Make final hire or reject decisions
- Maintain and update company profile.

4. Admin Flow

- Manage all users across the platform.
- Manage and monitor all job postings.
- Access and analyze system-wide reports.
- Moderate platform content (e.g., profiles, job postings).
